Work Experience

Salazar Digital

Jun 2018 – Present | San Jose, CA

Web Developer

- Building informational websites with over 40+ of them over the course of 4 years for industries ranging from medical to retail.
- Developing complex web applications such as the Santa Clara Dental Society website which consists of a learning platform, a job board, classifieds, and a member directory with the information of dentist's across the county.
- Developing a chatbot which can switch from autonomous mode to live chat mode if an agent is available, and I also developed the agent dashboard.
- Building custom themes and plugins for projects requiring custom functionality.
- Designing detailed mockups for faster development turnaround and for client proposals.

Find Us Today

Sept 2018 – Nov 2019 | San Diego, CA

Web Designer

- Designed informational websites for clients in the home service industry such as roofers, plumbers, and electricians.
- Designed promotional material and brochures for sales and upselling.
- Documented usage of websites in video format to guide clients needing to make simple changes.

Clear Digital Channel Network

Jul 2016 – 2019 | San Jose, CA

Graphic and Web Designer

- Designed a magazine called *Local Community Heroes*, creating advertisements for clients as well as the cover and gift certificate pages.
- Designed informative websites for the purpose of giving clients and our company an online presence.
- Produced video commercials for clients in industries such as dentistry, law, and bookkeeping. These advertisements aired on the company's laundromat network.
